## **FOR IMMEDIATE RELEASE**

### **2019 Educational Grants Winners Announced**

Libertyville, IL, April 11, 2019 -- The Furniture Society proudly announces the winners of the four Educational Grants, in partnership with four US-based educational institutions: Anderson Ranch Arts Center, Arrowmont School of Arts and Crafts, Haystack Mountain School of Crafts, and Peters Valley School of Craft.

The goal of these partnerships is to promote excellence in the furniture field through professional development and supporting projects of an educational nature.

The four partnerships are supported through the Educational Grants arm of The Furniture Society and provide unique educational opportunities **open exclusively to currently enrolled members of The Furniture Society. Each FS scholarship is designed to highlight an opportunity particular and unique to the partnering institution.**

This year's winners are:

Arrowmont: **Holly Gore.** Holly Gore writes at the intersection of modern and contemporary art, material culture, and artistic labor. A Ph.D. Candidate at the University of California, Santa Barbara, her dissertation, "Reinventing Work: Modernist Wood and Skilled Trade, 1940-1970," analyzes woodworkers Mary (Molly) Gregory, Isamu Noguchi, George Nakashima and James Blain (J.B.) Blunk. She can be found on Instagram @ucsbhaa

Anderson Ranch: **Jamie Herman.** Raised in Ohio, Jamie received a degree in anthropology before moving to New England to attend the Vermont Woodworking School and study furniture design. Since then, he's continued making studio furniture pieces that straddle the line between sculpture and function while exploring the limits of what he can make with wood. Jamie can be found on Instagram @jhstudiofurniture

Haystack: **Martin Hernandez.** Martin is a technical skill specialist, object maker, and mixed media artist. His work considers the influence that traditional craftsmanship and hands skills have on objects. Working between the realms of sculpture, fine furniture, and visual art, Martin make things that express refinement, technical prowess, and intent.

Peters Valley: **Leigh Dotey**. Leigh Dotey is a designer and maker based in Toronto and Philadelphia. Relying on both traditional and digital modes of making for the experimental and transformative results they bring, Leigh creates lasting objects with a thoughtful consideration towards the spaces they occupy.
